

Per Well:

ANALYSES

BOTTLE TYPE

BIOLOGICAL ANALYSES:

Heterotrophic Count / Specific Degradors 1 Liter HDPE

CHEMICAL ANALYSES:

pH, TDS, Alkalinity, Fe ²⁺ , o-Phos	1 Liter HDPE
Nitrogen, Ammonia	1 Liter Amber, H ₂ SO ₄
Dissolved O ₂	500 ml amber
BOD	1 Liter HDPE*
COD	250 ml Amber, H ₂ SO ₄

HDPE = high density polyethylene

* Please provide a separate 1 liter container for BOD because we wouldn't have sufficient volume to do all the additional tests with just one liter. Also, BOD needs to be measured from a container with minimal or no headspace.
